French Troops Quartered upon Americans—Chilian Intelligence.

NEW YORK, March 6.—The *Herald's* Mexican correspondent says: The American Consul at Vera Cruz has protested against quartering French troops upon resident Americans. One American citizen was arrested for refusing to supply quarters when called upon. The protest finally had some effect, and the quartering was discontinued.

Isham Harris, of Tennessee, ex-Governor and ex-Confederate, has gone to Havana, where it is supposed he is to meet Breckinridge, Mason, Slidell, Benjamin and others.

The *Herald's* Chilian correspondence says the English and French Ministers have advised their countrymen to refuse payment of the contributions that have been or are to be forced by the Chilian Government. There appears to be a loss of party sympathy between Peru and Chili.

The United States steamer Tuscarora, had gone to the Feejee Islands to punish the savages for barbarities on American seamen.

THE NEW YORK CUSTOM HOUSE AFFAIRS—SENATOR DOOLITTLE DENIES HIS COMPLICITY.

Mr. DOOLITTLE said: Mr. President—On Monday evening a newspaper was placed in my hands, in which I find a report of a committee of the last House of Representative, submitted by Mr. Hulburt, of New York, which demands notice at my hands. It fills me with surprise and indignation, that without any notice to me, without calling on me for any explanation, this report, by inference and not by direct charge, by innuendo, not by positive averment, endeavors to create the impression that I received or agreed to receive $5000, or some other pecuniary or other profit, from Mr. Smythe, Collector of the Port of New York. This charge, whether made directly, or by implication, whether sought to be sustained by proof or innuendo, is absolutely and unqualifiedly false, and from whatever source it comes I pronounce it a base falsehood, a vile and cowardly slander. I go further, sir, and say that in the hundred and perhaps thousands of cases in which, during the ten years I have been in this body, my recommendation has been sought and obtained, there is not a single instance in which any kind of pecuniary consideration of the value of one cent was ever expected or received, directly or indirectly, by me. I have yet to see that man on this earth who would dare to look me in the face and make such an offer. Upon this and all other matters I am ready to meet the most searching scrutiny. So much for myself; but my duty is not yet done. The good name of my son has been called in question on this subject. I have prepared a statement to submit to the Senate, but as I am told the testimony is not all published, I shall therefore withhold it. Meantime, I will only say that when the truth is fully known, there will be found nothing to reflect on his character as a soldier or a citizen.

ON THE SAME SUBJECT—ANOTHER DENIAL.

Mr. PATTERSON said—Mr. President: In looking over the papers, I see I am involved in the same charges that are made against the Senator from Wisconsin, that of having received $5,000 from Mr. Smythe. I will dispose of this question in a very few words. There is no direct charge made. It is an intended charge. All I have got to say is, it is false—false in its charge, false in its intentions, false in its innuendos. I never received a copper from Mr. Smythe. If the Senate will permit me to say so, I will say it is false as hell.

BILL TO ADMIT COLORADO, &C.

Mr. HARLAN introduced a bill to admit Colorado, and gave notice of a bill to construct a military and freight railroad from the Mississippi river to the Atlantic coast.

RELIEF FOR WISCONSIN.

Mr. HENDRICKS introduced a joint resolution, construing and giving effect to a joint resolution, for the relief of the State of Wisconsin, as passed in 1864. This resolution passed the Senate in February, but failed to get through the House.

THE LATE REBELLIOUS STATES.

Mr. SUMNER, according to previous notice, introduced a bill to provide a republican form of government for the late rebellious States. It provides for the establishment of the civil government on the basis of loyal voters. Ordered to be printed and to lie on the table until the Committees are formed.

FEES OF MARSHALS AND COURT CLERKS.

Mr. SUMNER introduced a bill increasing the fees of marshals and clerks of the United States district and circuit courts 50 per cent. over the present rates, and for other purposes. Ordered to be printed.

ANOTHER OATH FOR REBELS.

Mr. SUMNER introduced a bill to prescribe an oath to maintain a republican form of government, which provides that every person in any State, except Tennessee, lately declared to be in rebel[illegible]efore he shall be allowed to vote or hold [illegible] shall take an oath or affirmation to [illegible] re-publican form of government [illegible]ate of which he is an inhabitant, [illegible]ed States; that he will recog[illegible]ble unity of the republic, a[illegible] all efforts to break aw[illegible] Union; that he will [illegible]

sustain the national currency and discountenance repudiation of the war debt of the United States, and payment of the rebel debt, or any claim for loss of slaves; to discountenance and resist all laws making a distinction on account of race or color; that he will give his support to the education and diffusion of knowledge in public schools, open to all, and any person falsely taking such oath to be deemed guilty of perjury and subject to the penalties thereof, and rendered incapable of holding office. Ordered to lie on the table until the Committees are appointed.

TO CONSOLIDATE INDIAN AGENCIES.

Mr. HARLAN introduced a bill to consolidate the Southern and Central Indian Superintendency and certain Indian agencies, and to create an Indian Superintendency for the Territory of Idaho. Ordered to be printed.

THE ALEXANDRIA OFFICERS.

Mr. WILSON introduced the following, which was ordered to be printed:

The municipal officers of Alexandria, Va., having refused to obey and execute the laws of the United States, therefore, be it

Resolved, &c., That the municipal offices of that city are hereby declared vacated, and persons exercising the authority of said offices, or who may exercise the authority of the same, shall, on conviction, be imprisoned for not less than one year, and pay a fine of not less than $100.

THE PARIS EXPOSITION.

Mr. SUMNER called up the joint resolution in relation to the Paris Exposition. Without action the Senate adjourned.

HOUSE OF REPRESENTATIVES.

TOOK THE OATH.

Mr. STEVENS presented the credentials of Mr. Hooper, delegate from Utah, who took the oath.

Rev. Mr. Boynton also took the oath of office.

THE NATIONAL CURRENCY BILL.

The first business in order was the motion to suspend the rules, pending at adjournment yesterday, in order to permit Mr. Price to introduce a bill amendatory of the National Currency act. The bill prohibits banking associations from withdrawing, either on account of individuals or otherwise, any portion of their capital, and from making dividends greater than their net profits.

The House refused to suspend the rules, and therefore the bill was not introduced.

THE MARYLAND CONTESTED SEAT.

Mr. THOMAS presented the petition of J. J. Stewart contesting the seat of Mr. Phelps, of Maryland. Referred to the Committee on Elections.

RESOLUTIONS OF INQUIRY.

Resolutions were offered as follows:

By Mr. BROOKS, directing the Secretary of the Treasury to make personal inquiries into the seizure of champagne wines, made at the New York Custom House, in 1864, returned in the recent report of the Committee on Public Expenditures, and cause all such prosecutions to be discontinued, if, in his opinion, shippers or importers had not been guilty of willful neglect or intention to defraud the revenue. Laid over.

COLLECTORS, &C., REMOVED,

By Mr. HULBURT, directing the Secretary of the Treasury to furnish statements showing what number of collectors of customs, naval officers, surveyors, inspectors of customs, aids to revenue, and other officers, had been removed since the 3d of March, 1866, the increased compensation paid to their successors, &c. Adopted.

RELATIVE TO MRS. SURRATT.

By Mr. WARD, reciting the statement made by an ex-member of the Cabinet (Mr. Blair) in a public speech at Baltimore, that the testimony given in behalf of the Government, in the assassination trials, was suborned, and that Mrs. Surratt was convicted and executed without any evidence of her guilt, and directing the appointment of a Select Committee of three to examine thoroughly into such charge and report thereon, with authority to send for persons and papers and sit during the recess.

Several objections and suggestions being made, Mr. WARD withdrew the resolution.

TO AMEND LAW FOR COLLECTING CUSTOMS.

By Mr. WARD: Providing for a select committee of five to examine into the practical operation of the existing law for the collection of customs, and to suggest amendments that shall secure revenue to the Treasury, reduce fees and emoluments of collectors, naval officers and surveyors, and protect importers from oppression and unjust exactions. The resolution went over.

THE TARIFF BILL.

By Mr. MOORHEAD: Referring the tariff bill of the Thirty-ninth Congress, with pending amendments, to the Committee of Ways and Means, when appointed.

Without action, the House adjourned.

PEACE CONFERENCE SUGGESTED.

International Laws and Courtesies.

NEW YORK, March 6.—The *Herald* publishes a circular from Secretary Seward, dated December last, inviting Spain and the South American republics to unite in a peace conference at Washington, on April 1st, and suggesting that the President be authorized to appoint some neutral power as umpire, for the arrangement of differences respecting international laws and courtesies, without interfering with the terms agreed upon between interested powers. It is stated that the Chilian government will confer with her allies before accepting the proposition, but it is probable it will be finally accepted.

RIVER FLOODS IN TENNESSEE.

Railroad Bridges Swept Away—High Water at Memphis.

NASHVILLE, March 6.—The rains have washed away one hundred feet of the trestle work on the Nashville and Chattanooga Railroad at Running Water and the bridge at the foot of Raccoon Mountain, besides doing other damage. This will blockade the road for a couple of weeks and prevent the transmission of freight.

CHATTANOOGA, March 6.—There has been a four days' storm, and the bridges are down in all directions. The bridge of the Nashville and Chattanooga Railroad, at Whiteside station, 110 feet high, has been carried off, and communication north and east is entirely cut off. The bridge over Tennessee river at this place has been carried off. It is 900 yards long. The country is flooded.

LOUISVILLE, March 6.—The river from Tuesday evening to Wednesday noon had risen fourteen inches. It is now rising one and a fourth inches per hour, and raining. Mercury 37; Barometer 29.41. Arrivals: Stonewall from New Orleans; Pine Grove, from St. Louis to Pittsburgh; Donn Emerald, from Cincinnati to New Orleans; Julia No. 2, from Pittsburgh to St. Louis.

MEMPHIS, March 6.—Weather inclement; drizzling rain. The river rising an inch every twenty-four hours. It is within an inch of high water mark, 1862. Business dull; nothing doing on account of the weather.

FROM MEMPHIS.

Severe Snow Storm—Sinking of the Steamer Liberty No. 2—Convention of General Ticket Agents—Nicholson Pavement Contract.

MEMPHIS, March 6.—A severe snow storm prevailed last night and the boats were compelled to tie up.

The steamer Liberty No. 2 left here last evening for Louisville. When twenty-five miles above the city she was caught in the storm and struck a log aft of the wheel house, which knocked a hole in her hull. She sunk in seven feet water. No lives were lost. She can be raised. The Belle boat went to her assistance this evening. She was owned by Captain J. B. Archer and valued at $50,000. Insured by New York Underwriters $10,000; Queen of Liverpool, $15,000; Aetna, $10,000.

The Belle, of St. Louis, brought the passengers back to the city.

The Convention of general ticket agents of the United States and Canada, arrived to-day on the Belle, of St. Louis, and convened at the Gayoso Hotel, and elected officers for the ensuing year: B. W. Patrick, of Chicago, President, and Gen. Boyd Vice President. They have a hop to-morrow night at the Gayoso Hotel.

Taylor, McBard & Co., of Chicago, were awarded the contract, by the City Council, to pave several streets with the Nicholson pavement. The contract amounts to two millions of dollars.

Dry Goods Merchant Commits Suicide

BOSTON, March 6.—J. S. Clement, recently the head of the dry goods firm of Clement, Tasker, & Co., of Boston, committed suicide by taking laudanum. He had previously exhibited signs of insanity.

Virginia State Convention.

RICHMOND, VA., March 6.—A bill was reported to the Senate to-day for calling a State Convention. It is understood that the House Committee will report a similar bill.

The steamer Andelusia, from New York, for Charleston, was burned off Hatteras on the evening of the 3d, vessel and cargo being entirely lost. A hose carriage, intended as a present from the New York to the Columbia (S. C.) firemen, was on board. The steamer Manhattan has arrived at New York, with part of the officers and crew. A number are supposed to be lost.

NEW YORK CUSTOM HOUSE AFFAIRS.

Letter from Collector Smythe.

RECESS OF CONGRESS TILL MAY.

WASHINGTON, March 6, 1867.

PRESIDENT'S APPOINTMENTS.

An hour after the Senate adjourned, the private secretary of the President brought to the Capitol a large number of nominations, principally postmasters and army and navy officers, for the action of that body. It is calculated that three or four hundred vacancies under various branches of the Government are necessary to be filled before the adjournment of the Senate.

REPUBLICAN CONFERENCES—THE IMPEACHMENT.

Several private conferences of Republican members of the House were held to-day, at one of which Generals Butler and Logan were present, advocating, it is said, the appointment of a Special Committee to pursue the impeachment of the President.

The Ohio delegation had a conference today, but the subject of their deliberations is not known, further than it referred to what business should be transacted during the present session.

The New York delegation, at their conference, recommended that the impeachment question be referred to a Special Committee, to be composed of seven members of the late Judiciary Committee, and be returned to the present House. The views of these several parties will be urged upon the caucus to-night, at which it will be determined whether the standing Committees shall now be appointed, or whether this shall be done only after the elections in the Northern States shall have been held. The probability is that the appointment of Committees will be postponed, excepting the one specially instructed with the question of Impeachment. It is the opinion of members that this session will not continue more than a week longer, and that a recess until May may be taken, but as to this there cannot be certainty until the caucus decides.

NEW YORK CUSTOM HOUSE MATTERS.

Collector Smythe has addressed a letter to the President, which will be published to-morrow, affirming that the New York Custom House was never more economically, purely and efficiently administered than by him, and states that further reforms and economies will be accomplished as fast as practicable; that he has weeded out incompetency, ignorance, intemperance, and vice from it, and filled vacancies with competent and honest men from both political parties, and men of no politics; that the business of the Custom House has steadily increased, but that the necessary expenditure has not increased one-fifth of what the House Committee of Public Expenditures report. The general order of business was first placed in the hands of E. C. Johnson & Co., without payment, agreement, or understanding as to any profits they might make, and subsequently transferred to Myers & Smith, also without payment, agreement, or understanding, expressed or implied, with orders to reduce their charges to a basis satisfactory to merchants. But one complaint, and that of a trivial character, has been made from that day to this. Mr. Smythe repeats that he never received one dollar from this source in any form, directly or indirectly, and of course never distributed what he never received. It appears from the letter of Mr. Smythe that, satisfied with his other emoluments, he once formed the purpose of distributing the whole amount of profits in a general order, among certain friends, with portions reserved to protect clerks against electioneering assessments; but this purpose, as he testified under oath to the Committee, was unknown to most of them, never was executed, and was dispelled from his mind.

OFFICIAL NOTICE.

Official publication is made to-day, through the Department of State, of the act to provide for the more efficient government of the rebel States, and the act regulating the tenure of certain civil offices, both of which, it will be recollected, passed over the President's veto.

OMAHA INDIAN RESERVATION.

The returns of the survey of the Southern part of the Omaha Indian reservation, situated on the Missouri river, in the extreme part of Nebraska, have been received by the Commissioner of the General Land Office, showing that the Omaha reservation has been divided into northern and southern portions. Under the treaty of March 6th, 1865, the former has been sold to the United States, and is to be occupied by the Winnebagoes, and the latter by Omahas, to be possessed in severalty, assigning to each head of a family one hundred and sixty acres, and to each male person sixteen years of age and upwards, a tract not exceeding forty acres. White persons are not allowed to reside on the reservation, except such as are in the employ of the United States, without written permission from the Superintendent of Indian Affairs, or the special agent of the reservation. The allotment of lands to Omahas will be made for the exclusive use and benefit of themselves and heirs, and said tracts shall not be alienated by lease or otherwise disposed of, except to the United States, or to other members of the tribe.

THE ADMISSION OF COLORADO.

The Bill introduced in the Senate to-day, by Mr. Harlan, for the admission of Colorado, is substantially Edmund's amendment to the bill to enforce the terms of the present territorial equal suffrage law of Congress, and reserving the right to enforce it and the civil rights law in the State.

The changes in the Senate and House since the last Congress leave little doubt in the minds of the friends of Colorado that that State will be admitted at an early day. They say the vote on last Friday did not show the real strength of the bill, as there would have been three more votes for, and one less against, if such votes would have been necessary to carry the measure, making the real strength 32 against 17.

THE PUBLIC DEBT.

The Public Debt statement shows the total debt to be $2,690,587,289.19. The amount in the Treasury is: coin, $107,271,031.12; currency, $5,225,368.27.

THE HOUSE DOORKEEPER.

General Lippincott, who recently was elected Doorkeeper of the House of Representatives, will not make any changes of importance among the subordinates until the close of the present session. Meanwhile some of old employees are striving to be retained, while hundreds of others are making applications for appointment.

EXECUTIVE MANSION THRONGED.

The Executive mansion was thronged today with Members, Senators, office-seekers and politicians.

NEW YORK NAVAL OFFICER.

It is rumored that Colonel A. M. Wood, of Brooklyn, will be nominated in the Senate to-morrow, for naval officer at New York.

LATEST.

THE REPUBLICAN CAUCUS—IMPEACHMENT QUESTION REFERRED TO JUDICIARY COMMITTEE—RECESS OF CONGRESS TILL MAY.

The Republican caucus to-night voted to refer the impeachment question to the Judiciary Committee when appointed, and to take a recess on next Monday till the 8th of May.

[From the New York Papers.]

Governor Pierpont, in his message to the Virginia Legislature, convened in extra session to consider the Military Reconstruction bill, after alluding to the manner in which Virginia was forced into the secession movement against the will of a majority of the people, reviews the history of the past two years, during which time the Southern people had unwisely conducted themselves in the most offensive manner. He regrets the rejection of the Constitutional Amendment, and alludes to a confiscation act following the rejection of the proposition now offered. He wishes to escape this danger. Three-fourths of the people of Virginia were well disposed people, and the cause of irritation proceeded from a few. He therefore urges the acceptance of the situation and the adoption of the course marked out in the measure just adopted by Congress. The reading of the message was listened to with the deepest attention. Judd Turner sustained it in an effective speech. Other speeches were made on the same side, but the House adjourned without action.

The *Times'* special says that General Butler's plan is to appoint a select committee to sit during recess, and at the same time pass a bill authorizing the Speaker to convene Congress in extra session at the demand of the committee. But it is thought he will have to include the Judiciary Committee.

The *Times'* special says: The wool tariff requires that the Secretary of the Treasury shall select standard samples of the wools named and deposit them in the various custom houses. It is found that the wool growers and manufacturers are not prepared to furnish these samples, and the Secretary will be obliged to send to Europe for them, and it will be two or three months before they can be obtained. The law is also so loosely drawn that the Department has not yet been able to determine whether it affects goods in bond.

The question of assigning commandants to the five districts under the re-construction bill was considered in the Cabinet yesterday. A complete list was not decided upon, but it is understood General Schofield will have the first, including Virginia, and Gen. Hancock the fifth, including Louisiana and Texas.

Private information from Richmond indicates the rejection of Governor Pierpont's recommendation to the Legislature to adopt the reconstruction measure. Resolutions had been introduced recommending such a course, and referred to the Committee on Foreign Relations. A caucus had decided against the proposition.

The New York *Tribune's* special says that there is much opposition to Senator Sherman's proposition to extend the time for wool bill to take effect, and it is not likely to be passed. The President has re-appointed Mr. Bogy Commissioner of Indian Affairs.

LETTER FROM WASHINGTON.

Special Correspondence Pittsburgh Gazette.

WASHINGTON, Monday, March 4, 1867.

The unusual occurrence of one Congress coming to a close and another commencing its first session at the same hour, of the same day, drew an immense crowd to the Senate and House galleries to-day, the greatest number congregating in the latter. Long before twelve every seat in the immense galleries was occupied, and outside each doorway clustered an impatient throng, vainly seeking ingress. The floor of the House was filled with a great number of ladies, who, with the newly elected members and distinguished personages, permitted to occupy places there, crowded the aisles and filled the area and cloak rooms.

The important work of the session had been completed; the deficiency bill, the last of the appropriation bills, having been compromised through the Conference Committee, and finally passed just before the House took its recess, in the wee small hours of the morning. The hours before meridian were, therefore, taken up with unimportant matters, and time was found to vote a medal to Cyrus Field, for his achievements in ocean telegraphy; to authorize Navy Assistant Secretary Fox, and the Miantonomah iron-clad officers to receive presents from the Czar of the Russias, and to cut down the appropriation for the Paris Exposition.

At twelve o'clock the Speaker's hammer fell, and the vast assemblage was hushed into profound stillness, while Mr. Colfax addressed the House in a brief but impressive valedictory, concluding with the customary form, "I declare the House of Representatives of the Thirty-ninth Congress adjourned without day." The conclusion of Mr. Colfax's remarks were greeted with prolonged and deafening applause.

The clear metalic voice of Mr. McPherson, the clerk, was heard in due form calling the Fortieth Congress to order, after which he proceeded to call the roll of the members elect whose credentials had been placed in his hands. The calling of the roll was followed with much interest. Secretary Stanton was on the floor for an hour, and was warmly greeted by many Republican members. The names of General Butler and Logan, on the republican side, and of Fernando Wood and John Morrissey on the democratic, were watched for by many who had never seen the men, and an audible buzz and sound of suppressed mirth greeted the pugilist's formally spoken "here," the multitude swaying to catch a sight of the successful representative of vice. Morrissey was almost foppishly dressed in a full suit of black, with a cut-away vest, displaying snowy linen and a conspicuously heavy gold watch chain. He would be tolerably handsome were not his nose somewhat awry, having curly black hair and whiskers, and a fine figure, now growing respectfully corpulent. The roll call concluded, a number of members were upon their feet, and the Clerk recognized Mr. Wilson, of Iowa, who moved to proceed to the election of Speaker.

A dozen members, mostly Democrats, sprang to their feet, calling Mr. Speaker, from force of habit. Conspicuous among them were the stony face of Fernando Wood, with smooth iron grey hair and moustache almost white, his black coat as as usual, closely buttoned, and Erastus Brook's spectacled, pedagogic face. Brooks was the nearest and was accorded the floor. Farnsworth raised a point of order, that discussion was not in order pending the election of officers, but it was decided that the previous question not having been ordered, Brook's was entitled to be heard. He proceeded in a speech of half an hour's duration, to make solemn protest against further action, on the ground that seventeen States were unrepresented, that the convening of this Congress was without precedent, styling it the "Rump of a Rump Congress," and concluding with reading a formal protest signed by the Democratic Minority, which he asked to have placed upon the journal of the proceedings. This the Clerk considered out of order, saying he had no power to entertain any business except that of organization. During Brooks' speech several Republican members put pertinent questions, calling attention to previous convocations of extra sessions, one of them upon three days' notice under the Administration of Pierce. During the speech Butler's massive face and bold brow was noticeable paying restless interest to the proceedings, a page twice bringing him a yellow antique looking volume from the library, the leaves of which he rapidly turned with face close to the page, looking for some precedent or law point to which, when found, he would call the attention of those near him. General Logan, who had been warmly greeted at an earlier period, sat quietly observing the scene. The dark hair and striking bronzed face making him look the impersonation of the increasing soldier element in the House. The veteran Thad. Stevens, who had been absent during the session of the night before, was in his seat, looking on quietly. Brooks was surrounded by a conclave of Democrats, who prompted him occasionally. As he sat down another dozen shouted for recognition "Mr. Speaker" again excitedly, forgetting that they were addressing "Mr. Clerk." This time Mr. Wilson got the floor, and at once called the previous question on his motion, cutting off the debate, and the House proceeded to the election of Speaker viva voce, six tellers, three from each side, being appointed. Mr. Wilson nominated Schuyler Colfax; a democratic member named Mr. Marshall, of Illinois. The vote concluded, Mr. Banks, from the tellers, reported that Schuyler Colfax had received 127 votes, and S. Marshall, 30. The Clerk then announced that Schuyler Colfax, having received a majority of the votes cast—a quorum having voted—was duly elected Speaker of the House of Representatives for the Fortieth Congress, and designated Mr. Dawes as the oldest member of the House, having served the greatest number of consecutive times, to administer the oath of office. Mr. Marshall and Mr. Pomeroy, of New York, conducted Mr. Colfax to the chair, where, after receiving the oath, he made a short and impressive speech, delivering an earnest eulogium upon the preceding Congress for the protection it had accorded the down-trodden, and declaring his purpose to administer the rules with strictest impartiality. When the cheers which had greeted his concluding words had subsided, General Banks rose and offered a resolution that the rules of the Thirty-ninth Congress shall govern this, and that the Speaker appoint four members, who, with himself, shall constitute a committee to report any changes which may be desirable, and called the previous question. Brooks, by courtesy, was allowed to have his grumble at this point, saying there was more liberty of speech in the French Chambers than there is for the minority in this Congress. The resolution passed, and Schenck then got through a significant resolution that two-thirds may suspend the rules during the present week. This effectually disarms the minority and will prevent them from using any of their filibustering tactics. Mr. Stevens put in a motion to adjourn, which called forth the explanation from the Speaker that it was necessary then to elect the Clerk, whereupon Mr. McPherson was re-elected by acclamation. The motion to adjourn then prevailed, and the Fortieth Congress had fairly entered upon its labors, finding, it may be added, a very small legacy of pressing present work left it by its illustrious predecessor. It may in this connection be stated that there is little idea of pushing the impeachment business to the bitter end, unless some new development of Johnsonism shall revive it, and proper technical evidence of some grave misdemeanor, on the part of the Chief Magistrate, shall appear to warrant it.

The adjournment, from present appearances, is likely to come within ten days.

In a future letter I may review some of the actions of the remarkable Congress which followed the great war, and which grew in grace as its end drew near.

COURT REPORTS.

Oyer and Terminer, &c.

Before Hon. James P. Sterrett.

CONVICTED OF SEDUCTION

On Wednesday forenoon, the case of the Commonwealth vs. George Bynon, indicted for seducing Elizabeth Redman under promise of marriage, taken up on Tuesday afternoon, was proceeded with, and occupied the forenoon session. Shortly before recess the jury returned a verdict of "guilty in manner and form as indicted." Bynon, gave bail in the sum of $4000 for his appearance for sentence.

FINDING OF A POCKET BOOK—MYSTERIOUS DISAPPEARANCE OF TEN DOLLARS.

Charles L. Martin *alias* Probasco was arraigned upon an indictment charging him, in one count, with larceny at common law, and in another with larceny as bailee. Seth Wilmot, the well known policeman, appeared as prosecutor. It appears that Mr. Wilmot, in the pursuit of a man who had found a large sum of money, came across the defendant, having learned that he had found the treasure. He did not prove to be the man sought for, but, singularly enough, it turned out that he had found, and retained in his possession, a pocket book, between Allegheny City and the Sharpsburg bridge, containing twenty-five dollars in money, a number of cancelled checks, and other papers, belonging to David M. Edgarton, of Tarentum. The defendant delivered up the pocket book, and also gave to the officer the amount of money it contained when found, and, although it was not clever in him to retain what was not his own, with a knowledge to whom it belonged, it did not seem that his guilt was of such a degree as to justify a conviction under the indictment. The jury acquitted.

The pocket book, when, according to the evidence, produced before the grand jury, contained twenty-five dollars, but when examined by officer Wilmot, on the witness stand, the amount therein was but fifteen dollars, Mr. Wilmot stating that a ten dollar bill on the Mechanics Bank of Pittsburgh was missing. When taken from the safe of the District Attorney, and produced on the Counsel table in Court, by tipstave Larimer, it contained twenty-five dollars. So, the question arose, who took the ten dollar bill? It had not turned up when the case was concluded, and it appeared that after all the owner of the pocket book would be somewhat the loser, and some one ten dollars winner. Officer Larimer was somewhat exercised at what he conceived to be an imputation upon his honesty, in being required to give a receipt for the pocket book before being delivered to him from the safe of the District Attorney. He is positive it contained twenty-five dollars when he placed it on the Counsel table.

ASSAULT AND BATTERY UPON A BOY.

James Samuel was indicted for committing an assault and battery upon a small lad named John Martin. For the prosecution it was testified that the boy, seeing a tab on the coat of the defendant, which he had just purchased at a clothing store, stepped up to him with a view of calling his attention to it and have him take it off; that mistaking the purpose for which he was accosted, the defendant struck and kicked the boy into the street. For the defense it was testified that the boy provoked the assault by insulting the defendant, calling him an "Irish Jew," and saying to the man from whom he purchased the coat, "look out for that Jew, he'll cheat you." The evidence as to the provocation was contradictory, but admitting that insulting language had been used, the Court charged that it did not justify a battery, and if the jury believed the defendant struck and kicked the boy as stated, the offense was made out. Verdict, not guilty, defendant to pay costs.

CASES FOR TO-DAY.

The following cases are on the list for trial to-day: J. B. Dawson, charged with forgery; Morris J. Lucas, larceny; John Lutz, compounding a felony; Matthew Keep, extortion; Charles Coppey and other boys for larceny of newspaper files from the *Dispatch* office.

The bill for the extra work was disputed, it being contended that a portion was required by the contract. Barton, Purviance and Keenan, for plaintiff, and T. M. Marshall, Esq., for defendant. On trial.

CITY AND SUBURBAN.

FOURTH PAGE.—*The fullest and most reliable Money, Oil and Produce Market Reports given by any paper in the city, will be found on our Fourth Page.*

An Alleged Case of Garroting.

Last night, at about half-past ten o'clock, a man calling himself Patrick William Nolan came to Capt. Lewis' office in a state of no little excitement, and stated that he had been knocked down and robbed of fifty-five dollars in money and a quantity of pawn-tickets, &c. He said that a short time before he came to the office he was walking along a street, which, according to his description, must have been First, near Smithfield, when two men, one a tall and the other a short, heavy set person, approached and spoke to him. The tall man passed him, and the short one stopped and asked him if he were going in the car over the bridge. He replied that he was not, and immediately the tall man, who had got behind him, placed both his thumbs on Nolan's windpipe, pressing it so as to choke him and render it impossible for him to make any noise. Nolan was then knocked down, and while the tall man held his hand on his throat, the short man rifled the pockets of the prostrate man, taking the pocket book with fifty dollars in money and several pawn tickets. They then left him and walked away. He called after them, when the short one turned and fired a shot back at him with a revolver. He found his way to the watch house and told his tale as we have given it. All things considered we should require a spoonful of salt with the story before we could swallow it without confirmation.

Nolan says he is a sail maker by trade and has been employed as a stevedore near Philadelphia. He has also been a sailor. He came to Pittsburgh on Tuesday to work at his trade, and took lodging on Penn street, near the Point. He says the pawn tickets in his possession were obtained on his wife's clothing. To keep him from drinking she refused to give him money, and in her absence he pawned her clothes. His wife and children are now in Cleveland, Ohio. Lieutenant David Campbell went with him to the scene of the alleged robbery, but could get no satisfaction concerning it. The opinion was ventured by some who heard his story, that Nolan had spent all his money and was endeavoring to start a speculation.

Suit Against An Ex-Mayor.

A suit was entered yesterday afternoon, before Alderman McMaster, in which a discharged soldier was the prosecutor and an ex-Mayor the defendant. Harry May, a soldier who claims to have served under Sheridan for four years and three months during the war of the rebellion, states that, on the 13th of May, 1865, he was sued for bigamy before James Lowry, Jr., then Mayor of the city and in default of bail, was committed to jail to await his trial at Court. On going to jail the prisoner left in the care of the Mayor, for safe keeping, as he declares, two pocket books, one belonging to himself and the other to his brother, the two containing fifty-nine dollars in money and notes of hand. At the trial May was acquitted, and applied to the Mayor for his pocket books and money. He states that the Mayor refused to recognize him, and denied all knowledge of the valuables alleged to have been left in his posession. Several times since then, May says he has endeavored to induce the ex-Mayor to deliver up the goods, but with a like result. Yesterday, by advice of counsel, he made information before Alderman McMaster, charging James Lowry, Jr., with larceny as bailee. A warrant was issued and a hearing in the case will probably be held to-day, when both sides of the story will be made known.

Stole a Pocket Book.

J. M. McClung boards in the house of Mr. Thomas Douglas, on Fayette street, in the Fourth ward. Yesterday afternoon he had occasion to change his pantaloons, and took his pocket book, containing $9.30, out of his pocket and laid it upon the mantle shelf. Going out, he forgot his pocket book. He missed it almost immediately, however, and returned for it. As he came back, he saw Thomas Douglas, Jr., son of the proprietor, going past the door of his room. On entering, McClung found that his pocket book was gone. He made prompt inquiry, but could get no information. He accused young Douglas of taking the money, and the latter was arrested and taken to the watch house by Lieutenant Wilson and officer Gordon. The prisoner at first denied everything, but finally acknowledged that he took the pocket book "in fun" and gave it to his father. The house was visited again but the father denied all knowledge of the transaction. At last, the stolen property was found in the possession of the mother. Young Douglas is locked up awaiting a hearing.

The New Vigilant Engine.

Yesterday the Vigilant Engine Company of this city, received from the famous Amoskeag Works, the new steam fire engine, which has just been manufactured expressly for them. The new machine is the handsomest ever seen about here, and is probably the finest in the United States. It is a model of beauty and elegance and would be very difficult to imagine anything more perfect and complete in all its parts. It is considerably lighter and more easily handled than the old one, and will prove even more effective in service. The boys are wonderfully proud of their new engine, and well they may be, for it is as worthy to inspire pride as any thing well can be. We congratulate them on the posession of it.

The old engine is still in perfect order and is as effective as on the day it was built. We understand that the town of Canton, Ohio, is negotiating for its purchase.

Burglary in the Sixth Ward.

Some time during Tuesday night or yesterday morning, the tavern of Patrick Magee, on the corner of Washington and Webster streets, in the Sixth ward, was entered and robbed. The parties, whoever they were, obtained entrance through the grating to the coal vault and thence to the cellar and bar-room. Their depredations seem to have been confined to the bar-room. They broke open and rifled the money drawer, realizing about six dollars thereby. Besides this they took a six-barrel revolver, which hung above the bar. They went out as they had entered. It would seem that they first attempted to gain entrance by forcing open the iron cellar door in front of the house, but failed. The loss was not discovered until yesterday morning, and no suspicion as to who the parties may be exists.

New Goods at 87 Market Street.

A second supply of new goods, embracing all the latest and most fashionable styles which have made their appearance in the East, has been received at the already popular new dry goods store of J. M. Burchfield & Co., No. 87 Market street. Ladies out shopping should not fail to call in and examine the choice goods to be found at this establishment. The dress patterns, from the richest silks down to the humble calicos, have been selected with unusual good care and judgment, and will prove very attractive to our lady readers. Full lines of everything usually kept in the dry goods trade will be found also, which are retailed at very reasonable prices. Remember the place, the new dry goods house, No. 87 Market street.

Singing Mice.

We have heard of singing mice, but it is only recently that we have believed in them. In Captain Lewis' office at the watch-house, there are several which run about the premises wild. When the office is quiet during the night they come out and commence a serenade, chirping and twittering almost precisely like young canaries. Sometimes they sing in solos, and sometimes in choruses, but always very sweetly and musically. Their voices are quite loud and can be heard distinctly in every part of the room. So far as has been ascertained there are some half a dozen of these curious little animals. A person not seeing the mice upon singing, would be convinced that a number of birds were singing at a little distance.

Collision.—Yesterday a lady was driving in a buggy along St. Clair street, when she was stopped by a Penn street car stopping to take on a passenger. While the buggy stood there a dray was driven near it on Penn street. The driver called to the lady to get out of the way, but she could not, and he attempted to pass her. In passing, the dray came in violent contact with the hind wheel of the buggy, breaking it and snapping the axle off. The lady was thrown out, but, very fortunately, was not hurt. We learn that she contemplates bringing suit against the driver of the dray, whose name is Lawrence Lewis.

Larceny of Clothing.—Gabriel Simpson, a colored man living on Webster street, appeared at the Mayor's office, yesterday, and stated that Emma Clark, a frail piece of white femininity, had stolen from his house two dress skirts and an undergarment. Emma was arrested by officer Wrigley, and locked up for a hearing, to be granted today. She acknowledges having the clothing, but says she lived with Gabriel, and performed work for him, for which he refused to pay her, so she took the garments as her rightful property. The clothing belonged to Simpson's wife, who died some time ago of small pox.

The Crowded Court Room.

The Criminal Court room yesterday was even more crowed than on Monday and Tuesday. The lobby was a perfect jam, affording standing accommodation, in the estimation of a military friend, for about half a regiment, say three hundred persons, consisting, we judge, in a great measure of those out of employment, who embraced the opportunity to gratify a morbid curiosity to hear the details of criminal cases. Within the bar, and particularly in the space adjacent to the door, was quite as closely packed with humanity, while inside the bar proper the jam was scarcely less great, the tip-staves (we beg pardon for reflecting yesterday upon their lack of energy) in their endeavors to preserve proper order and decorum experiencing much difficulty, and having their patience and good nature put to a severe test. The venerable Larimer was exceedingly attentive, obliging and courteous, Billy Boston no less so, and the more youthful and vigorous McIlwaine always ready, to render necessary assistance, although his particular *forte* is nabbing delinquents on process, whilst the ever dutiful crier, Mr. Patterson, exercises a close superintendence over his subordinates. In Mr. P. the Court has a most faithful and useful officer, and the position he holds was never filled with better satisfaction. The inconvenience experienced by members of the bar, and annoyance to the Court generally in the transaction of business, is attributable mainly to the bad arrangement of the court room, which is illy suited in every way to the purpose. As things are now, we see no way of remedying the confusion which exists, except by excluding from within the bar all who have no present business there, (reporters always have,) taking care in this exclusion to make such provision for the comfort of attending jurors as may be possible. The continued standing of attorneys and others immediately in front of the bar of the court should not be allowed, and we remember of the judges having frequently forbidden it; but where there is a want of proper order in other respects, this irregularity naturally continues, and it is within the bar where the disorder mainly exists. The furnace engineer was not quite so "energetic" yesterday, having kept the mercury down to a reasonable degree.

Conjugal Difficulties.

Michael Scall and Isabella his wife, have been married less than a year, but more than the usual share of the troubles of married life has already befallen them. Yesterday Isabella came before Alderman Taylor and made information against her husband for surety of the peace, alleging that he had threatened her with personal injury and even with death. The husband also came before the same magistrate and lodged an information against his wife for adultery, declaring that, short as was the period of their married life, she has already proven false to her marriage vows, and that on one occasion the deponent's brother had caught her in *flagrante delictu*. Of late she has left her husband's house on Webster street, and is living, as he declares, in a disgraceful manner in the Fifth ward. It was in view of this state of affairs that he made the threats she complained of. Mrs. S. admits that she has left her husband, but declares that she was justifiable in doing so. Julia Scall, Michael Scall's sister, also made information against him for forcible entry, alleging that he came to her residence on Webster street and broke into it. Warrants were issued in all the cases.

Died Suddenly.

Mr. Robt. George, an elderly gentleman of Allegheny, died very suddenly on Tuesday evening in the lodge room of the American Protestant Association, Federal street, Allegheny City. A meeting of John Knox Lodge was being held in the hall, and the deceased, being a member, was in attendance. A few moments after entering the room he complained of feeling unwell, and stepped into the ante-room. The janitor observed that he was ill, and immediately summoned Dr. Rankin, but before the physician arrived death ensued. The deceased resided on Robinson street, Fourth ward, to which place his remains were conveyed. Yesterday morning Alderman Guyan M. Irwin, in the absence of Coroner Clawson, held an inquest on the body. From the testimony before the jury, it appeared that the deceased had been complaining for several days, but no apprehensions of serious results were entertained. A verdict of death from natural causes was rendered. The deceased was sixty-nine years of age and leaves a wife and family.

A Wanton Assault.

Washington Miles is a colored lad, residing on Crawford street with his uncle, Chas. Lawson, who has adopted him as his child. On Tuesday he met a white boy named Tony Snyder on the street, and was passing him without words, when, as is alleged, young Snyder attacked him suddenly, and without any provocation whatever, assaulting him with a brick. Snyder beat Miles over the head with this brick, cutting his scalp open in large gashes and producing injuries of a very severe and even dangerous character, after which he ran away. The cause of the wanton attack seemed to be solely the fact that Miles was a colored boy. The injured lad was taken home and Dr. Arthurs called in. It was found necessary, so severe were the cuts on the head, to take several stitches in them. Yesterday Charles Lawson, the uncle, came before Alderman McMasters and and made information against young Snyder for assault and battery with intent to kill. A warrant for the arrest of the youthful desperado was issued.

Stole Coats.

On Tuesday morning Peter Crowley was arrested by officer Cupples, charged with larceny on oath of George Wessell. Wessell alleges that on Monday last Crowley entered his house, through a back kitchen, and thence proceeded to his bedroom, where he appropriated a black frock coat valued at twenty dollars, and picking up an overcoat belonging to the same party valued at thirty dollars, was about leaving, when Wessell caught sight of him and had him arrested. The information was made against Crowley yesterday morning. The accused had a hearing before Deputy Mayor Morrow, and in default of five hundred dollars bail was committed to jail for trial.

Forcible Entry and Detainer.

Mrs. Margaret Long is a widow residing on Point street, in a room hired from Owen Carroll. Last week Mrs. Long and Mrs. Carroll "had some words," and the former was sent to jail for five days by Mayor McCarthy. She was released yesterday, and on going to her room she found it, as she alleges, locked with a padlock, and all her household goods piled up in the hall outside. She further states that her landlord told her that, if she tried to obtain an entrance it would be the worse for her. She accordingly went before Alderman McMasters yesterday afternoon and made information charging Owen with forcible entry and detainer. A warrant was issued.

Yesterday, Ash Wednesday, was appropriately observed by the Episcopalians and Catholics of the two cities. At the Cathedral the services were of the usual interesting character and Rt. Rev. Bishop Domenec occupied the pulpit. He delivered a powerful temperance sermon and urged upon the members of his flock to enrol themselves in the glorious cause, by receiving a pledge he had prepared, and which was ready for distribution at the altar. The effect of the sermon was encouraging, for nearly two thousand of the "Truce of Temperance cards, were taken out by the members. If all retain their pledges, the zealous Bishop has greatly aided in the good work of temperance now going on.

Broke a Window.—C. A. Boucher, of the firm of Shields & Boucher, grocers, at the "Red front" on Smithfield street, made information before Alderman McMasters, charging Peter Dean with malicious mischief. It is alleged that on Tuesday night the accused entered the grocery of the prosecutor, and acted in a very disorderly manner. In the course of his visit he partially smashed a window, producing damage to the amount of two dollars. A warrant was issued for the arrest of Dean.

Neighborly.—Mary A. Cox and Catharine Anderson live in the same house on Point street, and, as neighbors, will quarrel occasionally. Mrs. Cox says her neighbor has become so violent and so direct in her threats and demonstrations that she is in mortal terror lest some of these threats should be carried into execution and she lose her life. She accordingly made information, before Alderman McMasters, against Catharine for surety of the peace. A warrant was issued.

Pennsylvania Railroad Directors.—At the annual election for Directors for the Pennsylvania Railroad Company on Monday, the following named persons were elected: J. Edgar Thomson, Josiah Bacon, John Rice, Wistar Morris, Alexander Nimick, Pittsburgh, Samuel T. Bodine, Joseph B. Myers, Edward C. Knight, Washington Butcher, John M. Kennedy. This is the old ticket of Directors, with the exception of John Rice in the place of John Hulme.

Released.—Some four weeks ago, Thos. Straub, of Allegheny, was arrested on a charge of having counterfeit United States money in his possession. After a hearing, in default of the necessary bail, he was committed to jail to await his trial at the United States Court. Yesterday he procured the requisite bail and was released from jail by order of the United States Marshal, Thomas A. Rowley.

Bruder had made information before Alderman Taylor, charging Morris Collins with selling liquor without a license, and selling liquor on Sunday; and charging Michael and Thomas Finucain with assault and battery. The accused were arrested, and in default of bail were committed to jail on Tuesday evening. Yesterday they obtained the necessary bail and were accordingly released from jail.

Sent Over.—Kate Welsh, a celebrated Alleghenianess, came to the Allegheny watch house on Tuesday night very drunk, and requested to stay all night. The Pittsburgh Gazette.

THURSDAY, MARCH 7, 1867.

IT SEEMS tolerably certain that the new Congress will not remain in session much, if any, beyond the current month, and that not much work will be accomplished until the session shall be resumed in the fall.

THE Office Tenure Act has forced upon the President the conviction that he is not the only power in the government. His means of corrupting men by appeals either to their ambition or cupidity are effectually taken away.

IT SEEMS probable that a General Railroad Law will be passed before the adjournment of the Legislature, but that it will be loaded with limitations and exactions never yet embraced in an act of special incorporation. The Republican members ought to bear in mind that the party, by the action of its last State Convention, stands pledged to enact a General Railroad Law, and that it will be quite as honorable to ignore that promise altogether, as to keep it in a way as to imply deceit and treachery.

LICENSE OR PROHIBITION.

That the Still is the real Pandora's box, out of which flows all imaginable and inimaginable forms of misery and mischief, is attested by universal observation and experience. One-half of the social plagues that afflict modern society are certainly attributable to it. What wrecks of body, of mind, of fortune, of character, of domestic ties, does it not scatter all along the shores of Time! How it stocks almshouses, jails, penitentiaries, and gallows! To this extent candid and sober-minded people are agreed respecting it. But they divide and stand apart directly when measures for dealing with the evil are proposed. This oppugnation grows out of the inherent difficulties of the case. Various schemes have been devised and tried to restrict and repair the damage occasioned by the use of intoxicating drinks, and all have signally failed. Individual instances of reclamation have, indeed, been produced under each of the plans suggested; considerable abatements have been made, at times, in the use of stimulating beverages; but as permanent remedial agencies all have proved unavailing. Ratably to population, intemperance exerts a more powerful sway today than at any former period. These are facts often ignored in considering the problems involved in the prevalence of drunkenness; but so long as they are denied their due weight no safe or beneficial conclusion can be reached.

For awhile Moral Suasion was regarded as the infallible panacea. It was insisted that by appeals to pride, to reason, and to conscience, it was possible not only to set up effectual barriers against the swelling tide of intemperance, but to turn the devastating current back, to force it first into a narrow channel, and then to dry it up forever. Much good was done, and is still doing, by this method; enough abundantly to compensate for all the labor bestowed, and to encourage increased effort for time to come. All through society instances are met of men rescued from destruction by means of moral and social influences. So far as the individuals thus saved are concerned, nothing better can be desired. But where one has been redeemed thousands have been lost. As a means of social regeneration, the instrumentality, as applied, has not proved effectual.

In coming to this conclusion we do not mean to be understood as touching the deeper question of the abstract potentiality of Truth and Right, or to express or imply a doubt but they will ultimately win the mastery of the world. All we mean to say is that the battle of those two elements with Falsehood and Wrong has been going on a long while, and that even now the aspect of the field is decidedly mixed. In many places the better powers seem to get the worst of it.

After Moral Suasion had been essayed for some years, with gratifying individual cases, but with very little effect on the general sweep of affairs, it was proposed to try Legal Suasion; that is, to put the traffic in intoxicating liquors as a beverage into the category of crimes. In strictly rural localities, and particularly where a certain degree of preliminary work had been done by the other sort of Suasion, the new scheme proved to be measurably a success, but with the dense urban populations the scheme has, at best, operated indifferently. Under popular governments, so long as a majority, or even a powerful minority, are determined to indulge in a particular beverage, they cannot be successfully debarred by penal enactments. The imperial government of China has done the best it could to uproot and stop the opium traffic, but has found unlimited power too short for its purpose. Among a people of a sturdier race, like the Caucasian, it may reasonably be conjectured that the prohibition of alcoholic drinks would lead to serious convulsions, if not to actual revolution.

Pittsburgh ranks, and not without cause, in certain aspects, as an eminently moral and religious town. It is not, however, remarkable for Temperance. Indeed, after considerable opportunities for judging, we think more men stagger along Fifth street, daily, in a condition of drunkenness than along any corresponding street in the United States. This is a strong expression, but we think it within bounds. It may be our police do not do their duty, touching this class of persons, as vigilantly as it is done elsewhere, but the fact must stand as we have stated it.

There are temperance people here who urge the Prohibition of the Liquor Traffic, except for mechanical and medicinal purposes. It is one thing to prohibit; quite another to stop. The majority of our people do not incline to that extreme measure; and in the absence of a local sentiment demanding it, and in an unmistakable manner, there is no probability the Legislature will authorize it. What, then, shall be done?

We take it, the License system will be continued in some form. In that event, the best thing to be done is, so to adjust its details as to sweep out, as nearly as possible, all the dens in which the sale of liquors is not the main thing, but is subsidiary to gambling, prostitution, and other species of immorality. Bring the whole traffic into conspicuity, so that the police and the citizens cannot fail to see who prosecute it, and in what manner it is conducted. Make the tax for a license so high that whoever obtains one will have an important stake in seeing that his legal domain is not poached upon. In this way many of the evils of that traffic will be sensibly abridged. Indeed, fewer mischiefs will attend the business in this form, than under an ineffectual Prohibition. Respectable men, engaged either in the manufacture or sale of stimulating drinks will, under such a system, co-operate with their fellow-citizens in making the traffic therein as tolerable as is compatible with its nature and existence.

In the present attitude of public sentiment, does any thoughtful person hope for more? If so, we do not see on what grounds of reason or probability he builds the expectation. While we should be glad to see the thirst for alcohol completely extirpated, we have no idea it will be in our day, if for many ages to come. A license system that shall diminish the number of drinking-places; bring such as exist on to the most crowded thoroughfares; and, by monopoly, make them sources of considerable income; will be a decided improvement on the system now in use, than which it is difficult to see what could be much worse.

OUR CONSUL GENERAL IN CANADA.

The high measure of respect in which our gallant General AVERILL is held by the Canadian population among whom he represents our Government as Consul General, is a source of great pleasure to the young chieftain's many warm friends and admirers in this country. As a bold and intrepid leader in the Union army, General AVERILL won from a grateful nation the highest plaudits awarded to bravery; as a diplomat in foreign parts he has received many evidences of the confidence, esteem, and admiration of a strange people. No man has ever accomplished more in so limited a period of time towards strengthening the bond of good fellowship between the United States and Canada, and few have so successfully broken down the barrier of prejudices thrown up against our people by their cousins across the border.

Recently, he celebrated an event dear to all of us, the anniversary of the birth of WASHINGTON, by a grand ball, at which all the elite and representative citizens of Montreal were in attendance. Our Canadian exchanges teem with glowing accounts of the brilliant affair, and all agree that such an assembly never before was witnessed in Montreal. During the evening General AVERILL made a neat table speech, reviewing the pleasant relations which exist between the two countries, and expressing his desire to ever promote the happiness and tranquility of both. His address was listened to with much attention and received with no little evidence of enthusiasm.

In closing its report of several columns length of the ball, the Montreal *News* says:

> It is a graceful and fitting compliment to the memory of the great chief, that one of modern America's young Generals—himself not unknown to fame—should select this memorable day for the exercise of his hospitality upon a scale of unusual magnitude.
>
> General Averill, the American Consul-General, seems disposed to extend the right hand of fellowship to the Canadian population; and if his policy is to efface any soreness of feeling, fostered accidentally or by design, he has adopted an effectual mode to secure success. It is not in human nature to eat a man's salt and abuse him. We admire the good taste that suggested the form in which he has sought expression for his nationality, and the motives of amity and kindly feeling which have influenced him.

NEXT Tuesday the election in New Hampshire will take place. Their representatives in Congress, a Governor, Council, Senate and House of Representatives are to be chosen. The contest will be very close, but we anticipate a Union Republican victory. The gallant General Harriman, who made some effective speeches in these parts last campaign, is the Union standard bearer for Governor.

THE Governor of Michigan has decided that it is unconstitutional for the Legislature of that State to authorize the granting of municipal aid to railroad projects. Against this the State Attorney General tells the Legislature that it is constitutional.

M. Stephan, the Paris savan, describes the new comet as exceedingly brilliant, of a roundish shape, and a strongly marked nucleus. It nevertheless appeared so condensed on one side as to lead him to suspect that there might be something like a fan-shaped tail on the other. He thinks the comet is gradually increasing in brilliancy.

He was highly respected; was formerly from New York, and leaves a family in Utica, New York, from whom he has been separated many years. He leaped from the steamer Cora S. Doty, and was recovered in a few moments, but life could not be resuscitated.

—Two boys belonging to London, C. W., were carried fourteen miles down the Thames on Sunday afternoon, on a sheet of floating ice. On reaching Hall's Mills they passed over the dam in safety, as also that at Kilworth, shortly below which they managed to hang on to a tree, and at last got ashore, arriving home at ten o'clock the same night—a warning to little boys not to desecrate the Sabbath.

—There were four persons executed in Ireland during the past year, and twenty in England. The verdicts of coroner's juries for murder were seventy in Ireland and two hundred and sixty seven in England. If the English ratio of infanticides were to prevail in Ireland, the number of coroner's verdicts for that crime during the past year, would have been 55; it was only 39. If the number of indictable offences committed in Ireland were in proportion to those committed in England, it would be 20 per cent. higher than it is. And if the criminal cases in Ireland bore the same proportion to the population that those classes do in England, their present number would be more than doubled.

SPREAD THE TRUTH.

Some medical men insist that it is undignified to advertise a remedy, however valuable it may be. Queer reasoning this. It is like saying that an article which the world needs should be hid in a corner—that benefits and blessings may be too widely diffused—that the means of protecting and restoring health should be a close monopoly, and not accessible to all. The argument is bad. It is worse than that; it is inhuman. Suppose HOSTETTER'S STOMACH BITTERS—an absolute specific for dyspepsia, biliousness and nervous debility—had never been known beyond the *repertoire* of the faculty, what would have been the consequence? Instead of curing and invigorating millions, the good effects of the preparation would have been confined to a comparative few. There is the highest authority for saying that light should not be hid under a bushel; that whatever is excellent should be placed as a city on a hill, where all men can take cognizance of it. It is upon this principle that the BITTERS have been advertised and continue to be advertised in every newspaper of any prominence in the western hemisphere, and that the spontaneous testimonials in its favor have been translated into all written languages. Thousands enjoy perfect health to-day who would be languishing on beds of sickness if the newspapers had not *spread the truth with regard to this unequaled invigorant and corrective* far and wide. Suppose profit *has* been reaped from this publicity, is *that* any argument against it? If the public health has been protected; if lives have been saved; if the feeble have been strengthened and the sick restored, *great good has been accomplished*; and who so mean as to grudge to exertions thus directed their fair reward? mh6

THE HONEY OF WHITE PINE.

With that indomitable Yankee skill and genius peculiar to the people of New England, and worthy of the instinct of the honey-bee only, Dr. GEORGE W. SWETT, of Boston, has compounded a medicine out of the sweet inside bark of the white pine tree, which has a wide reputation in a large variety of diseases of the bladder and kidneys, and mucuous surfaces and membranes generally, called "WHITE PINE COMPOUND."

Dr. SWETT says that it is sweet and palatable, and is readily taken both by children and adults, and was originally known to the aborigines, who so named the forests of those States, and used it in a variety of diseases, especially those of scorbutic character. It is a sure cure for DIABETES, GRAVEL, ENURESIS, BLOODY AND MUCOUS URINE, and the troublesome malady known as albuminurea, or Bright's disease. Those who have tried in vain the various Buchus and diuretics, will find in Poland's White Pine Compound a remedy of superior efficacy and power.

NEW ADVERTISEMENTS

AMERICAN
WALTHAM WATCHES.

I.—We claim, and are prepared to prove, that the American Watches, manufactured at Waltham, Massachusetts, are not only equal, but far superior to the common watches of England, Switzerland and France.

II.—While we admit that it would be difficult to excel the masterpieces of the eminent European manufacturers, and while we do not claim to have made any decisive improvements over them, we do assert and challenge a successful denial, that our superior class of watches are fully equal, *in every respect*, to the most expensive specimens of foreign chronometrical art.

III.—We claim that our watches are cheaper, more accurate, less complex, more durable, better adapted for American use, and more easily kept in order and repaired than any other watches in the market.

IV.—The reasons why our watches possess these advantages over their European rivals are chiefly:

First, Because the principle of the division of labor is carried out in our workshops to its extremest limits, not in human industry only, but in machinery as well. Every watch passes through hundreds of hands and hundreds of machines.

Second, Because we promptly adopt every new invention to perfect our machinery, and every preferred improvement in the structure of watches.

Third, Because in each of the very numerous, minute, and often microscopic parts of which a watch is made up, we attain, by mechanical power, nearly *absolute* mathematical precision and uniformity, which it is utterly impossible to achieve by manual labor. Wheels, pinions, escapements, balances, springs and screws—exact counterparts in weight, circumference and dimensions—are turned out by millions by the unerring, because unswerving, iron hands of machinery. Hence, every watch of any one style is a true copy of its model.

V.—These results enable us to defy foreign rivalry, because no similar uniformity and precision is attainable by hand, and because in Waltham alone is machinery exclusively employed in the manufacture of the intricate and delicate mechanism.

VI.—Now, as will be seen at once, this similarity in structure reduces the cost of production; it secures uniformity in results, it perpetuates and *infallibly* diffuses any excellence that may be once achieved; and makes it easy to repair any injury sustained, or replace any part that may be lost or destroyed.

VII.—In addition to these mechanical advantages, our Watches are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 125 to [illegible] pieces. In an old English watch there are more than 700 parts.

VIII.—We began our experiment in 1850, in the face of a formidable prejudice against American watches. Our system was new and untried. We have steadily increased our facilities, until now we employ over 700 artisans, and sell 70,000 watches a year. Nearly a quarter of a million of our watches are in use to-day in every State of the Union, as well as in the Mexican and British Provinces and Colonies. Their universal popularity is the best proof of their merit that we can produce. They have won their way in spite of of every opposition and of immemorial prejudices. Hundreds of dealers all over the country have expressed their preference for our products after a long and practical experience with foreign watches.

Any of the grades of Waltham watches may be purchased of watch dealers generally throughout the country.

LARGE SALE OF
KANSAS LANDS,
ON TUESDAY, THE 2d DAY OF APRIL, 1867, will be offered
AT PUBLIC SALE.
At the Eldridge House,
IN THE CITY OF
Lawrence, Kansas,
ABOUT 155,000 ACRES OF LAND,

"Delaware Reserve."
These lands are directly on the main line of the
UNION PACIFIC RAILWAY, EASTERN DIVISION.

IN FERTILITY, LOCATION AND ABUNDANCE OF TIMBER AND WATER, these lands are the FINEST IN THE STATE.
By the treaty with the Delawares in 1860 the Indian title to the "Reserve" was extinguished, and since that date many farms have been improved, and churches, school houses, grist and saw mills erected, and many other improvements made there.
The climate of Kansas is remarkably healthy, and to farmers and settlers these lands offer

The Pittsburgh Gazette.

THURSDAY, MARCH 7, 1867.

An Outrageous Robbery.

We learn from the Pottsville *Miners' Journal,* that one night last week, the residence of an old couple, Thomas Edwards and wife, three miles from that place, was visited by a band of thieves and robbed. The *Journal* gives the old folks' account of it as follows:

They say they had just gone to bed (about eight o'clock) when they heard a tap at the front door. The door was opened, and the man asked if they had anything to drink. Then the whole crowd, (ten Irishmen) rushed in. Some went up stairs, and some went into the bed room where Mrs. Edwards was in bed. One of the men held two revolvers at her head, and told her that she had "to go and see God to-night;" that she had to have six of those loads down her throat. Then they covered her over with a sheet. While this was going on, three of the brutes tried to put Mr. Edwards on a fire to roast him. Brave acts truly, towards a man seventy-seven years of age, and a woman sixty-four years old. Four of the men searched Mrs. Edwards and found nearly one hundred dollars in her bosom. They then searched the house, and finally decamped with one hundred dollars in money, a silver watch, all the clothing they could find, making in all a loss of two hundred and fifty dollars. Among the articles stolen was a pair of boots which belonged to and were worn by a son of Mr. Edwards at the time he fell in battle during the rebellion. One of the robbers sat down and pulling off his old boots put on those of Mr. Edwards' son. On the leg of the robbers' old boots left behind were the letters "P. B." They also took a clock, which being heavy, they carried only a short distance. It was found the next morning near the house.

Serious Accident.

The York *True Democrat* says: On Thursday evening last, about five o'clock, Jacob Loucks, Esq., who resides on the Bull road, a short distance from this borough, met with a serious accident which has placed his life in imminent peril. He had come to town on business and had left his horses, which were attached to a light vehicle, standing in front of Christian Bender's store, on the corner of West Main and Penn streets. The horses became alarmed at some noise which was made by a boy in the vicinity, and started to move off, when Mr. Loucks ran to catch them, but missed his hold of the rein and fell. One of the horses kicked him in the forhead, inflicting a wound about an inch square, and fracturing the skull bone to such an extent that some of the particles of it were driven into the brain. He was subsequently taken to his home, and Dr. Jacob Hay, Jr., Dr. Henry L. Smyser and Dr. James W. Kerr, were called in and promptly attended to his injuries. There were ten fragments of bone taken from the wound, and a portion of the brain oozed out in the operation, which of course was one of a very delicate and painful character. After this he sank into a dreamy and apparently unconscious state, and at our last advices was said to be in a very critical condition. There was a little daughter of Mr. Loucks in the vehicle at the time the horses commenced running, but she was thrown out before they reached home, and though considerably soiled with mud, we are happy to say, escaped with only slight injury. Mr. Loucks is well known in this borough as a gentleman, and an active and efficient business man, and both he and his family have the sympathy of a large circle of friends and acquaintances. His recovery is considered exceedingly doubtful.

Terrible Accident.

On Saturday morning last, a dreadful accident occurred on the East Pennsylvania railroad, near Temple Station. Two young ladies, Miss Kauffman, of Ontalaunce township, and Miss Groff, of Upper Bern township, started for the railroad intending to go to Reading. Upon reaching the station and finding they had missed the train, they concluded to walk to the city as the distance is not very great, and proceeded down the railroad. When they arrived at the Eastern Railroad crossing, beyond the Alsace Church, they heard a train coming, had proceeded but a short distance, when Miss Kauffman's right foot was caught in the cow-trap at the crossing. Miss Groff, seeing her critical situation, endeavored to release her, and whilst they were both struggling, the train which had now proceeded too far to be stopped, passed over them. Miss Kaufman was shockingly mangled, both her legs being horribly mutilated, and Miss Groff was struck on the head and breast, and much hurt internally. The train was stopped as soon as possible, and all the available assistance to alleviate their sufferings was rendered. Miss Kauffman died about noon. Miss Groff is still living, but hopes are scarcely entertained of her recovery.

A York County Tooth.

They have found a big tooth in York county, and the *True Democrat* thus describes it: "Our neighbors of the *Gazette* office had placed in their hands last week a chrystalized substance of some kind, resembling the molar tooth of an animal, and which was dug out of the ground, by a farmer in York county, at no very great depth from the surface of the earth. The tooth, if such it be, weighs some pounds, and spreads itself over a considerable surface, showing it to have belonged to an animal materially larger than any known to the past deluvian world. The substance has now turned into stone, yet it presents all the distinct outlines of a molar tooth, roots and enamel, but everything perfectly chrystalized. When the weather improves and the ground is in better working order, it is the intention of the farmer to dig deeper and make further research, with the prospect, of course, of finding the balance of the bones of this huge monster which Noah could not squeeze into his ark along with the rest of the members of his interesting family.

The Gallup Murder.

The West Virginia *Journal* says: Some weeks ago a watch was sold by two young men of this county, which was afterwards identified as that of George M. Gallup, who was foully murdered near Parkersburg last spring. They were arrested on suspicion and taken to Parkersburg, and, after an examination, were honorably acquitted. The watch, we understand, had been obtained by them from a young jeweler carrying on in this town last summer, since in Cincinnati; and his arrest, together with that of a young citizen of our county, followed. The latter was conveyed to Parkersburg last week by Deputy Sheriff Mahan, and has obtained bail; while the former were brought from Cincinnati and Parkersburg. A third party, from the vicinity of the scene of the murder, is also under arrest for the crime. The trial will shortly commence, when the evidence against these parties will transpire. Till then we refrain from comments.

Horse Thief Caught.

We learn that a man was arrested at Easton, on Wednesday last, for stealing a pair of horses and heavy farm wagon, which he had in his possession. The property was taken from the vicinity of Camden, New Jersey. The man with the wagon and horses, which were a pair of fine bays, stopped at Nathan Riale's hotel, at Ottsville, in Tinicum, on Tuesday, the day before he was arrested, where he stated he was on his way to Michigan, and offered to trade his team for one less cumbersome, giving as a reason that he wanted to raise some money to aid him in his journey. He had in the wagon a quantity of hay and some horse feed. A description of the man and the stolen property had been telegraphed to Easton, and when he arrived there on Wednesday he was immediately taken into custody.

A Dead Child Found.

The Harrisburg *Telegraph* says: Information recently came to the ears of Mayor Edwards that a child, born at the States Union Hotel, some time ago, had been buried in the yard adjoining said house. Accordingly, this morning, a search led to the discovery of the remains. They had been placed in a box and buried on the premises. They were very greatly decomposed. Catharine Kelly, alleged to have been the mother of the child, was arrested, and acknowledged that the infant was hers—that it was born in October last, and was dead at the time. It was born on a Sunday morning, and was not buried until Monday afternoon. The principal charge against Catharine Kelley seems to be that of concealing the birth of an illegitimate child. She was a boarder at the States Union Hotel at the time.

Escape from the City Prison.—About half-past eight o'clock on Monday night fourteen chain-gang prisoners escaped from the Columbus city prison. They broke a hole in the wall under the southwest window in the second story, tied their blankets together, and with the assistance of this impromptu ladder lowered themselves to the ground. Three others of the chain-gang refused to join in the skedaddle, and one of those who succeeded in getting out, returned in half an hour to his old quarters voluntarily. None of the others were retaken.

Penitentiary Arrivals.—The Columbus *Journal* says: The following prisoners were received at the Ohio Penitentiary yesterday: From Holmes county, Amos Luke, burglary and larceny, one year; from Van Wert county, James Hedges, manslaughter, one year; from Manoning county, Henry Linneman, assault with an intent to commit a rape, six years; from Carroll county, Jarritt Davis, manslaughter, one year.

Oil Accident.—Edward Treat, from near Conneaut, Ohio, was terribly burned Thursday morning, on the Stor Farm, while kindling a fire with crude oil. The can exploded, and his clothes were on fire in an instant. He had the presence of mind to plunge himself in the creek, near by, thus extinguishing the flames and saving his life. Though he was badly burned, it is believed he will recover.

Centenary Meeting.—The Centenary Meeting of Allegheny College, at Meadville, was held on Thursday evening last. The exercises were highly interesting, and the contributions of the evening amounted to $6,384.

Counterfeit Coin.—Counterfeit five-cent coins are in active circulation. The die or matrix by which they are made is nearly perfect, but the metal is very base, in some instances being not much better than lead.

Land Slides.—Several slides occurred on the track of the Oil Creek Railroad, a short distance below Titusville, on Saturday morning, in consequence of which the trains were delayed about eight hours.

The Trial of Montgomery.

The Wheeling *Intelligencer* in speaking of Montgomery's acquittal says: The trial of William Montgomery, Jr., at Washington, Pa., as an accomplice in the murder of Robert Dinsmore, has ended in his acquittal. From the efforts made in his behalf, which were all that money and influence could bring to bear, this result has not been unexpected. He stands acquitted in the eye of the technicalities of law, but there is one or two veryl curious circumstances, the effect of which it will be hard to erase from the mind of the public.

The testimony of persons about the Jail as to the remarks of Lennox to Fogler, warning him to keep his mouth shut on the details of the shocking tragedy in which, by his own confession, and as established in court, he stood a guilty participant and showed that the evidence of this doomed man, who has nothing to expect at the hands of his fellow men, and nothing to hope for at the bar of the Eternal Judge, by an evasion of the truth, was to be feared. His refusal to say a word either for or against Montgomery, showed either that he had a false hope, which still clung to earth and mortal life, or that to the stupendous crime which now stains his soul he feared to add the sin of perjury. If Montgomery was not his accomplice, what was easier for him in the presence of the Almighty God, and those hundreds of witnesses, and under the solemn injunction of that righteous Judge, that he should utter the truth, as he expected to answer to God, than for him to have said, the accused was not my accomplice, he is not guilty.

Granary Burned.—On Friday night the granary and stable belonging to Mr. A. Moore, residing in Baden, were burned to the ground, together with two or three sets of harness and a considerable amount of grain and hay. Fortunately the horses were got out of the stable in safety. The building was entirely destroyed. The origin of the fire is unknown, but it is supposed to have been incendiary. Mr. Moore's loss will probably amount to $1,400, partially covered by insurance.

Threatened.—Mary Ballard is afraid of William Davis, who lives on Tunnel street. She alleges that on Tuesday night he came armed with bricks to her residence on Roberts street, in the Seventh ward, and threatened to break into her room. Yesterday she went before Alderman Taylor and preferred a charge of surety of peace against William. A warrant was issued.

Explained.—An exchange that contained a sensation item about "a young man who was found suspended from a tree, hung by his suspenders," forgot to explain that the said suspenders were attached to the young man's inexpressibles, and that the catching of them on a broken limb merely saved him from a severe fall.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, March 6, 1867.

The following are the New York stock quotations for to-day: Gold, 136¼; 1881 bonds, 109½; Five Twenties, old, 109¼; Five Twenties, '65, 107½; do new, 106½; Seven Thirties, 105¾. Michigan Southern Railroad, 76¾; Cleveland and Pittsburgh, 79½; Pittsburgh, Fort Wayne & Chicago, 92⅝; Erie, 55¼; Chicago and Northwestern, 32½; do preferred, 59½; New York Central, 101; Chicago and Rock Island, 92¾.

—We learn that the Treasury has ceased the sales of the new consolidated Five-Twenties, January and July, and the purchase of the second and third of Seven-Thirties. The funding of the first series will be hastened as rapidly as practicable, and holders are invited, free of express charges either way, to send in their notes at once and receive the consolidated Five-Twenty gold-bearing bonds or registered stock now carrying over sixty days' accumulated gold interest, the difference of interest being adjusted in currency. They have the additional inducement of a rising market, and a rapidly increasing demand for the gold-bearing consolidated Five-Twenties. It is suggested, especially to country banks and savings' institutions, that if they prefer the Seven-Thirty per cent currency bearing security for another year, the price of the second and third series will afford the opportunity of making the exchange.

—The financial action of Congress is not regarded as facilitating expansion to any extent, and prudent people are shaping their affairs in harmony with the declared policy of the Treasury—steady and persistent contraction. The leaders in contraction will be the National Banks, which, having left no stone unturned to make money upon the flood of paper money which has covered the country, now finding themselves loaning upon crops and goods which cannot be marketed except at heavy losses, and upon stocks which in numerous cases cannot be sold for the amounts for which they are hypothecated. As bank officers and financial people generally are among the foremost in speculations, they are naturally disposed to look with more favor upon speculative customers than their character or capital warrant; and it is only when the bubble bursts that they realize the risks they have been taking, and disclose to the stockholders the losses they have suffered. Some very unpleasant disclosures have just been made at Baltimore, Boston, Pittsburgh and other smaller points, and more will be brought to view as the banks are forced to contract, as they must, by funding the National debt, and calling in compound notes. Present bank credits upon breadstuffs, provisions, and a long list of manufactured goods, are based upon prices which are steadily shrinking, and must continue to do so, to the damage of their owners and parties loaning upon them. At no distant day this fact will be apparent, and a scramble will be made by creditors to "protect" themselves. Forced sales will be made, lower prices established, and many notes be left unpaid. This is the process by which the country is to return to "prices before the war," and it will cause the loss of fortunes, as perishable as the paper upon which they have in the past few years been calculated.—*N. Y. Tribune.*

—The continuance of conversion operations by the agents of the Treasury has given more than usual activity to Governments. The *Financial Chronicle* says:

"The Treasury has made no further sales of any new sixty-fives, but has bought about ten millions of seven-thirties during the week. The quotations of five-twenties at London have continued generally firm, and a moderate amount of bonds has been bought on foreign account. The scarcity of five-twenties of 1862 has caused a foreign demand to turn partially upon the old five-twenties of 1862. Efforts are being made to introduce the new sixty fives upon the foreign markets, as likely, from their ultimate large issue, to be the leading security of the United States; but as yet no shipments of that bond appear to have been made. The amount outstanding of the coupon old bond of 1865 is stated to be $57,000,000."

Coal shares were heavy and lower. Miscellaneous stocks were lower at board and steady afterwards. There was an increased activity in the mining shares market, with important fluctuations. Gregory was the chief point of interest, and registered sales of 9,500 shares; the stock opened at 12,50, declined to 11,75, when it rallied to 12,10, and afterward receded to 11,10, closing at 11,25. There was more doing in Quartz Hill, at 3,85, closing at 3,84. Gold Hill was active at 4,25. Desmoines declined to 1@1.25. Alamanda attracted considerable attention, and sold from 5,70 up to 6.

The following are the prices of Mining stocks bid in Boston this day: Copper Falls, 25; Franklin, 28¼; Hancock, 8; Huron, 20; Isle Royal, 10; Minnesota, 10, and Quincy, 34.

PITTSBURGH MARKETS.

WEDNESDAY, March 6, 1867.

RIVER NEWS.

The river continues to recede slowly at this point, with but little over eleven feet in the channel by the Allegheny marks last evening. The weather yesterday was raw and disagreeable, with an occasional spitting of snow, and business was dull at the levee.

The new steamer Elisha Bennett left on her first trip for Brownsville yesterday morning at eight o'clock. It is supposed that the Bennett will prove to be one of the fastest boats in the Monongahela river trade.

The new steamer Dubuque had steam up yesterday, the object being, we presume, to test her engines. This fine craft follows the Savanna for the Upper Mississippi.

The Argosy got in from Cincinnati on Tuesday night with a good trip, although a little behind time, having been delayed by fog; discharged her cargo early yesterday morning, took on a large amount of freight and left for same port again last evening. This is what may be called "doing a rushing business." The Maggie Hays, as we learn by a private telegram, left Cincinnati for Pittsburgh on Tuesday evening.

There were no arrivals yesterday aside from the regular packets, and the Argosy, for Cincinnati, was the only transient departure.

Capt. Sam Shuman, Superintendent of the "Pittsburgh and St. Louis Packet Company," reached home from St. Louis on Tuesday night. Capt. Shuman has been away for several weeks on business connected with the line, and during his absence he has established agencies at all of the principal ports between here and St. Louis.

The Yorktown, Capt. Ebbert, is filling up steadily for Cincinnati, Louisville, Saint Louis, and Missouri river, clear up to the gold mines, and the Amelia Poe is also loading for the same points. Both these boats will leave on Saturday positively, and passengers and shippers should bear this in mind.

The Glendale, Capt. Hare, with the veteran Capt. Jas. Mellon in the office, is announced as an "Independent Packet" for St. Louis and Missouri river, leaving on Saturday next.

The America, Captain Golding, is filling up steadily for Nashville, and the Savanna, Capt. McGowan, is loading for all points on the Upper Mississippi.

The Great Republic, Capt. W. B. Donaldson, is announced for New Orleans, leaving about the middle of next week. As we have already intimated, here is a chance for pleasure seekers desiring to make a trip to the Crescent City.

The Maggie Hays and Spray arrived at Cincinnati on Monday, and the Hays was advertised to leave there for Pittsburgh on Tuesday. The Columbia left Nashville for Pittsburgh on Tuesday, and the Leonidas, en route from New Orleans to Pittsburgh, arrived at Cairo on same day.

We clip the following from the St. Louis *Democrat*: W. B. Russell & Co. have been appointed sole agents at this port for the St. Louis and Pittsburgh line of packets, of which Capt. Samuel Shuman is General Superintendent. Capt. Patterson and company, owners of the Lillie Martin, which was sunk, and raised in a very delapidated condition, have at last got a settlement. The owners had paid about $4000 premiums for the insurance of $15,000. The underwriters give the owners, not the amount for which the boat was insured, but the sum of $5000, and the machinery and a few old traps belonging to the steamer in question, and the wrecking company gets the hull for raising the wreck. Capt. Patterson calls this a settlement "with a vengeance."

We extract the annexed items from the Cincinnati *Commercial*, of Tuesday: The R. C. Gray, Capt. W. B. Anderson, departed for Pittsburgh with full load, the New York having reshipped 300 tons on her—175 tons of ore being for Steubenville, 432 barrels of oil for Parkersburg, and the balance for Pittsburgh. Capt. Frank J. Oakes has retired from the command of the Pomeroy packet St. James, and is succeeded by Captain Ames Davis, who has purchased stock in the line. The Lawrence, while coming up under the bridge yesterday tore the tops off her chimneys. Capt. A. Stein has retired from the command of the P. W. Strader, in order to attend to private matters here; Capt. John G. Benson is his successor. Mr. J. G. Isham yesterday purchased the Melnotte, at United States Marshal's sale, for $2400. Capt. M. W. Beltzhoover left for Pittsburgh on last night's train. Capt. Dave Hukill, well known to river men here is now in Memphis. He is suffering, however, from injuries sustained by being thrown from his buggy last summer.

THE FEBRUARY RUN OF COAL.—The late run of coal was very light, and we understand that at present there is but very little coal "got out" of the Monongahela mines, or ready for shipment. The amount in the ports during the past month was very limited, and that supply is now exhausted.

The departures include the Valid, for Cumberland river. By breaking a cam rod was compelled to cut her tow loose while in the Ohio river, by which two of the boats were lost. The only sales we have heard of were 20,000 bushels afloat, to Capt. Packer, for Natchez, at twelve cents in barges, and sixteen cents in boats, including boats; the barges to be returned.—*Louisville Courier.*

KNOWLES' PATENT STEAM PUMP.—PATENTED IN ENGLAND AND FRANCE.—This pump has received the highest premium at every Fair where it has been exhibited, viz: New York, Boston, Baltimore, Cincinnati and Springfield.

It has no Crank, or Fly-Wheel, and has no dead points where it will stop; consequently it is always ready to start without using a starting bar, and does not require hand work to get it past the centre.

It has been used for more than eight years for feeding stationary Steam Boilers, and has been used more than five years on Locomotives, and is the only Steam Pump yet tried, that is in every way adapted for that use. It has been extensively used for pumping water for hotels, public institutions, and Manufacturing Establishments of every kind, with perfect success. It has been tested in the Navy, and in consequence is recommended by the Chief Engineer of the U. S. Navy, to be used on all Government Steamers and Gunboats.

The Proprietors offer this Pump as the most Perfect Independent Steam Pump ever invented, and for simplicity and durability defies competition.

CONSUMPTION

Our son, JAMES PAINTER, some three years ago was afflicted with consumption of the lungs for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after examining his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.

JAMES PAINTER.
MARY ANN PAINTER.

Temperanceville, Sept 5th, 1866.

PITTSBURGH, December 31, 1856.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP. I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eighteen months. I employed the best physicians in the county, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle, I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think that it should be known that this valuable remedy will do for others what it has done in my case. JOHN C. LITTLE,
Witness—R. M. KEAN. Peebles township.

A case of five years' standing cured by Dr. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1860.

DR. KEYSER—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint may have been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON
Alderman, Fifth Ward.

WHOOPING COUGH.

Below will be found a certificate from Doctor M. DUPUY, one of our most respectable dentists, in regard to Dr. Keyser's Pectoral Syrup. The Pectoral Syrup is also an infallible cure for every form of cough and cold to which we are liable.

PITTSBURGH, June 23, 1862.

DR. KEYSER: Dear Sir: I have for a long time been opposed to advertised or patent medicines, and it is with reluctance that I recommend any of them. The consideration, however, that I am doing the community a service, induces me to overcome my objections, and to publicly recommend your Pectoral Syrup. We have kept it in our family for the last five or six years and have given it for coughs, such as are produced by colds, &c., with the effect of alleviating or entirely arresting them. During last winter our children were exposed to the infection of whooping cough, and each one of our three boys was attacked with what we believed to be that malady. We administered your syrup liberally, and the result was, that the whooping cough lasted with neither of them more than ten or twelve days. I hope others will at least make a trial of your medicines in such cases, as we have found it beneficial. Yours,

HERNIA OR RUPTURE.

It will be observed that we have published for some time past an advertisement of Dr. George H. Keyser, of 140 Wood street, Pittsburgh, Pa. in reference to Trusses and other mechanical appliances for the cure and relief of hernia, rupture, besides various brokendown conditions of the human body which are usually beyond the reach of medication. Dr. Keyser has given this branch of the business great attention for several years past, and we think we are justified in saying that he comprehends it thoroughly. You can get at his store, Shoulder Braces for weak breasts, Elastic Stockings for varicose veins, Pile Props for the cure of Piles, and, in fact, every variety of mechanical appliance. Dr. Keyser is the inventor of a Truss for the radical cure of Hernia or Rupture, so perfect in its parts and so comfortable to the wearer, as to elicit the admiration of all who may need such an appliance.

He has recently been in communication with some of the ablest and most experienced truss surgeons in the United States, and feels satisfied that all those who have been plagued or annoyed with ill-fitting and uncomfortable trusses, can be accommodated by calling at his consulting rooms, No. 120 Penn street, or at his Medicine and Truss Depot, 140 Wood street. Office hours from eight to eleven A. M., and one to four P.

DEAFNESS AND THE EAR.

Many persons have rested content in the belief that skin and ear diseases, however troublesome, will wear out of themselves, or that no remedy will avail in effecting a cure; in this way many persons have suffered through half a dozen years, who might easily have been relieved at the onset in as many weeks. So also with regard to the ear, a prejudice has obtained that the ear is too delicate an organ to be treated, or as is often expressed, TAMPERED WITH; hence hundreds have thus remained deaf for the greater part of a lifetime, who might have been greatly relieved, and in many instances, completely restored to their hearing, had proper assistance been timely applied for, as may readily be seen by a perusal of the following certificate. We also take occasion to remark that the testimonial comes from a source close at hand, in Allegheny City, where, upon inquiry, any one interested can satisfy themselves of its truth:

PITTSBURGH, July 28, 1864.

DEAR SIR:—I take pleasure in adding my testimony to that of others in favor of Dr. Keyser's treatment of deafness. My son had been afflicted for five years with deafness produced from scarlet fever. At times he could not hear at all; we could only understand as we would motion to him. His speech had also become affected. Having tried other remedies without receiving any benefit, I applied to Dr. Keyser, and under his treatment he has entirely recovered, and can now hear as well as ever he did.

JOHN B. GARRET,
